

SCRAPPING THE WEBSITE AND STORING DATA IN DATAFRAME

Web Scrapping -it is a powerful technique is used to extract data from websites

- fetch web page ->> parsing the content --> mark the content to be retrieved --> store it for further analysis
- commonly used for
- data collection
- research and various other applicaton

#how web scap works ?

- send an http request : send to target web server
- retrieving web page content : server response with the web page content , usually html format -parsing the html : html content is parsed to locate specific data elements (using library tools design for these purpose) [BeautiifulSoup,Scrapy]
- relevent data is extracted from the parsed html structure based on predefined rules or criteria
- Storing Data: the extracted data can be in the format uc as csv , database , json which is used for furhther analysis
- Handling challanges: web scrapper may need to
- (anti scraping majors) -- there is different in request we send from python which is restricted by the server) -- dynamic content loading (javScript) -- legal consideration

```
# importing lbrary here i used easy formats so its better to understand
import pandas as pd
import numpy as np
from bs4 import BeautifulSoup as BeautifulSoup # this is a py library for web
scraping
import requests as request
```

E-commerce

Learn to scrape e-commerce websites or validate your solutions by using our fictional [games store](#). Here you will find the storefront, category and product pages, as well as search pages.

checking and marking the particular type of data in the website which we need to collect

- right click on the website and then click on the inspect button so this page will look like

-now click on the top left icon which is look like hover butoon

-this will allow you to find each div and every component on the web .

Here you can check the part of web and find the class and attribute of the html

this is the basic content so now we will scrap the data of the hyper link i.e. -

Join Mario as he ushers in a new era of video games, defying gravity across all the planets in the galaxy. When some creature escapes into space with Princess Peach, Mario gives chase, exploring bizarre planets all across the galaxy. Mario, Peach and enemies new and old are here. Players run, jump and battle enemies as they explore all the planets in the galaxy. Since this game makes full use of all the features of the Wii Remote, players have to do all kinds of things to succeed: pressing buttons, swinging the Wii Remote and the Nunchuk, and even pointing at and dragging things with the pointer. Since he's in space, Mario can perform mind-bending jumps unlike anything he's done before. He'll also have a wealth of new moves that are all based around tilting, pointing and shaking the Wii Remote. Shake, tilt and point! Mario takes advantage of all the unique aspects of the Wii Remote and Nunchuk controller, unleashing new moves as players shake the controller and even point at and drag items with the pointer. of thieves and mercenary treasure-seekers he had sought to leave behind. When
a mysterious artifact propels Drake on an expedition to find the legendary
Himalayan valley of Shambhala, he finds himself embroiled in a dangerous game
of cat-and-mouse against a fugitive war criminal who's after more than just
the fabled riches of the lost city. Caught in a web of deception and plunged
into an increasingly deadly pursuit that tests the limits of his endurance,
Drake will be forced to risk everything - but has his luck finally run out?

In the midst of all of this, Solid Snake, now a member of the anti-Metal Gear group "Philanthropy," has learned that a new prototype Metal Gear has been developed by the U.S. Marines and is being transported in secret to an unknown destination. To learn more about this new machine, Snake must infiltrate the transport, disguised as a tanker, as it makes its way down the Hudson River. Just as Snake is about to begin his mission, however, the ship is seized by a mysterious and well-armed group bent on stealing the new Metal Gear for their own, nefarious purposes.

Now in 3D all of the graphic textures and colors have been vastly improved, taking advantage of the considerable graphic power of the Nintendo 3DS system. This game tells the epic story of Hyrule and Link™, Zelda™, and Ganondorf in remarkable depth and gives context to the many tales of their struggles. As such, this title represents a perfect entry point for players new to the Zelda franchise. Phenomenally Improved Graphics Beyond even the incredible 3D effect, every graphic texture and character model has been lovingly built from the ground up to create the most dynamic and vivid vision of Zelda's kingdom yet. This is Hyrule as you've always imagined it. Playing the Ocarina Link needs to play the eponymous Ocarina of Time many, many times over the course of the game. This involves a specific series of button presses to play one of the twelve songs in the game. In the original title, you would need to assign the ocarina to an item slot, then likely review the button prompts to your song, then play them from memory. The Nintendo 3DS version has the ocarina constantly available on the Touch

"description":"The Legend of Zelda: Ocarina of Time 3D takes the best-reviewed game of all time for a brand-new experience. Now in 3D all of the graphic textures and colors have been vastly improved, taking advantage of the considerable graphic power of the Nintendo 3DS system. This game tells the epic story of Hyrule and Link™, Zelda™, and Ganondorf in remarkable depth and gives context to the many tales of their struggles. As such, this title represents a perfect entry point for players new to the Zelda franchise. Phenomenally Improved Graphics Beyond even the incredible 3D effect, every graphic texture and character model has been lovingly built from the ground up to create the most dynamic and vivid vision of Zelda's kingdom yet. This is Hyrule as you've always imagined it. Playing the Ocarina Link needs to play the eponymous Ocarina of Time many, many times over the course of the game. This involves a specific series of button presses to play one of the twelve songs in the game. In the original title, you would need to assign the ocarina to an item slot, then likely review the button prompts to your song, then play them from memory. The Nintendo 3DS version has the ocarina constantly available on the Touch Screen, and playing with the button prompts for each song right in front of you. Enhanced Game play While the greatest care has been taken to preserve the classic game play and story, a number of new features make this the definitive version of this extraordinary game.",

Join Mario as he ushers in a new era of video games, defying gravity across all the planets in the galaxy. When some creature escapes into space with Princess Peach, Mario gives chase, exploring bizarre planets all across the galaxy. Mario, Peach and enemies new and old are here. Players run, jump and battle enemies as they explore all the planets in the galaxy. Since this game makes full use of all the features of the Wii Remote, players have to do all kinds of things to succeed: pressing buttons, swinging the Wii Remote and the Nunchuk, and even pointing at and dragging things with the pointer. Since he's in space, Mario can perform mind-bending jumps unlike anything he's done before. He'll also have a wealth of new moves that are all based around tilting, pointing and shaking the Wii Remote. Shake, tilt and point! Mario takes advantage of all the unique aspects of the Wii Remote and Nunchuk controller, unleashing new moves as players shake the controller and even point at and drag items with the pointer. <p class="description css-cput12 eag3qlw5">Since the incident on Shadow Moses  
Island, Metal Gear's top-secret technology has been leaked into the black  
market through the machinations of Revolver Ocelot. As a result, countless  
variations of Metal Gears have sprung up in every corner of the globe, making  
the weapon an increasingly common component of the armed forces of nuclear  
powers.

In the midst of all of this, Solid Snake, now a member of the anti-Metal Gear  
group "Philanthropy," has learned that a new prototype Metal Gear has been  
developed by the U.S. Marines and is being transported in secret to an  
unknown destination. To learn more about this new machine, Snake must  
infiltrate the transport, disguised as a tanker, as it makes its way down the  
Hudson River. Just as Snake is about to begin his mission, however, the ship  
is seized by a mysterious and well-armed group bent on stealing the new Metal  
Gear for their own, nefarious purposes. [Konami]</p><div class="price-wrapper

Now in 3D all of the graphic textures and colors have been vastly improved, taking advantage of the considerable graphic power of the Nintendo 3DS system. This game tells the epic story of Hyrule and Link™, Zelda™, and Ganondorf in remarkable depth and gives context to the many tales of their struggles. As such, this title represents a perfect entry point for players new to the Zelda franchise. Phenomenally Improved Graphics Beyond even the incredible 3D effect, every graphic texture and character model has been lovingly built from the ground up to create the most dynamic and vivid vision of Zelda's kingdom yet. This is Hyrule as you've always imagined it. Playing the Ocarina Link needs to play the eponymous Ocarina of Time many, many times over the course of the game. This involves a specific series of button presses to play one of the twelve songs in the game. In the original title, you would need to assign the ocarina to an item slot, then likely review the button prompts to your song, then play them from memory. The Nintendo 3DS version has the ocarina constantly available on the Touch Screen, and playing with the button prompts for each song right in front of you. Enhanced Game play While the greatest care has been taken to preserve the classic game play and story, a number of new features make this the definitive version of this extraordinary game.</p><div class="price-wrapper css-li4v8k eag3qlw4">90,99 €</div><a class="css-13df51w e1knbtv71" color="Secondary" href="" rel="noopener noreferrer" target="\_blank"><span class="css-193c83t e1knbtv70">Add to Basket</span></a></div>, <div class="product-card css-e8at8d eag3qlw10"><div class="css-15g2oxy eag3qlw3"></div><a class="card-header css-o171kl eag3qlw2" href="/products/25"><span style="box-sizing:border-box;display:block;overflow:hidden;width:initial;height:initial;background:none

Halo 3 is the third game in the Halo Trilogy and provides the thrilling conclusion to the events begun in "Halo: Combat Evolved." Halo 3 picks up where "Halo 2" left off. The Master Chief is returning to Earth to finish the fight. The Covenant occupation of Earth has uncovered a massive and ancient object beneath the African sands - an object who's secrets have yet to be revealed. Earth's forces are battered and beaten. The Master Chief's AI companion Cortana is still trapped in the clutches of the Gravemind - a horrifying Flood intelligence, and a civil war is raging in the heart of the Covenant. This is how the world ends... [Bungie]

## why stock give error?

- this is because the stock is comming from api i.e. the html is not storing all the data some part of data is comming in the form of json . so in order to check that there are few steps - open the network -refresh the page -click on product tab - select response
- you can see

- here you can clearly see the data is coming from json i.e why we can not fetch the data from the BeautifulSoup as it only has the parsed HTML. So in order to do this
- we should parse the JSON data either by creating another variable for BeautifulSoup or we can choose to parse the entire web content with the JSON only
- here the image content is also not available as it is derived from the JSON it replies image field.

'CATEGORY': 'Miscellaneous,Fantasy,Compilation,Action Adventure,Open-World',

'DESCRIPTION': 'The Legend of Zelda: Ocarina of Time 3D takes the best-reviewed game of all time for a brand-new experience. Now in 3D all of the graphic textures and colors have been vastly improved, taking advantage of the considerable graphic power of the Nintendo 3DS system. This game tells the epic story of Hyrule and Link™, Zelda™, and Ganondorf in remarkable depth

and gives context to the many tales of their struggles. As such, this title represents a perfect entry point for players new to the Zelda franchise. Phenomenally Improved Graphics Beyond even the incredible 3D effect, every graphic texture and character model has been lovingly built from the ground up to create the most dynamic and vivid vision of Zelda's kingdom yet. This is Hyrule as you've always imagined it. Playing the Ocarina Link needs to play the eponymous Ocarina of Time many, many times over the course of the game. This involves a specific series of button presses to play one of the twelve songs in the game. In the original title, you would need to assign the ocarina to an item slot, then likely review the button prompts to your song, then play them from memory. The Nintendo 3DS version has the ocarina constantly available on the Touch Screen, and playing with the button prompts for each song right in front of you. Enhanced Game play While the greatest care has been taken to preserve the classic game play and story, a number of new features make this the definitive version of this extraordinary game.',

'NAME': 'Chrono Cross',

'CATEGORY': 'Role-Playing,Console-style RPG',

'DESCRIPTION': 'Featuring a storyline developed by the creator of Chrono Trigger and Xenogears, Chrono Cross has been christened the "Best RPG Creation" by its development team. With multiple scenarios cast along a

single story thread, and many different endings, each replay can result in an entirely new adventure. In addition, a brand new battle system makes combat smooth and innovative by introducing an element field system and combo system that gives the player unparalleled flexibility in their fighting options. The elimination of random battles also quickens the pace of the game, and places the choice of where to battle in the player's hands. With character designs by a famed Japanese illustrator and music by the original Chrono Trigger composer, Chrono Cross features visuals and sounds that bring its magic to life.',

'NAME': 'Gears of War',
'CATEGORY': 'Action,Shooter,Third-Person,Sci-Fi,Arcade',
'DESCRIPTION': "Gears of War blends tactical action with survival horror
and thrusts gamers into a deep and harrowing story of humankind's epic battle
for survival against the Locust Horde, a nightmarish race of creatures that
surface from the bowels of the planet. Lead war hero Marcus Fenix and his
fire team as they face the onslaught of merciless warrior fiends. A
revolutionary tactical combat system and breathtaking, high-definition
visuals from the Unreal Engine 3 immerse you in a horrifying story of war and
survival. A.I. teammates are indiscernable from human players. Voice
recognition and real-time lip synching heighten the experience. The
battlefield is a lethal place. To survive, suppress your enemy with
blindfire, take cover in interactive environments, or use weapons and
teammates to outwit your foes. [Microsoft]",

'NAME': 'Halo 3',
'CATEGORY': 'Action,Shooter,First-Person,Sci-Fi,Arcade',
'DESCRIPTION': 'Halo 3 is the third game in the Halo Trilogy and provides
the thrilling conclusion to the events begun in "Halo: Combat Evolved." Halo
3 picks up where "Halo 2" left off. The Master Chief is returning to Earth to
finish the fight. The Covenant occupation of Earth has uncovered a massive
and ancient object beneath the African sands - an object who's secrets have
yet to be revealed. Earth's forces are battered and beaten. The Master
Chief's AI companion Cortana is still trapped in the clutches of the
Gravemind - a horrifying Flood intelligence, and a civil war is raging in the
heart of the Covenant. This is how the world ends... [Bungie]',
